DETAILED ACTION

Allowable Subject Matter

1. Claims 1-23 are allowed.
2. The following is an examiner's statement of reasons for allowance: Upon consideration of applicant's remarks on pages 8-14 of the amendment filed September 20, 2004, it is agreed that the cited prior art does not disclose or suggest "processing circuitry configured to communicate with the image forming device using the interface to *configure the image forming device to cause the formation of another one of the consumable order assist functions with respect to replenishment of the imaging consumable within the image forming device* and responsive to the status of the imaging consumable within the image forming device," (emphasis added) as recited in base claim 1, or "*configuring the image forming device after the accessing to cause the formation of another one of the consumable order assist functions with respect to replenishment of the image consumable within the image forming device* and responsive to the status of the imaging consumable within the image forming device," (emphasis added) as recited in claims 8 and 14. None of the prior art references disclose configuration of an image forming device by processing circuitry of another apparatus, for the purpose of forming consumer order assist functions subsequent to the formation of an initial consumer order assist function.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
